Present - Superior Marshal representing 10 shares
James F. Fitch " 14 "
James F. Fitch " 3 "
and James F. Fitch by Power of Attorney
representing 172 1/2 shares

The original State of Maine on file - 1844

1917
1844

73

A motion of Rufus Nichols, Sam. Biddleford
was chosen Chairman, and Thomas Dumbley was chosen
Clerk of the meeting. —

The Clerk was then sworn to faithfully
discharge his duty according to the following form: —

Spoken by Biddleford July 2, 1800

"I solemnly appeared the Dumbley Clerk of the first
meeting of the Locomotive Company, who made oath, that
he would faithfully discharge the duties as Clerk of the
meeting according to the list of his statutes. —

Before me

Amos Biddleford

The act of incorporation was then read, and unanim-
ously accepted. —

— State of Maine. —

In the year of our Lord one thousand eight
hundred and forty one. —

The Act to incorporate the Locomotive
Company. —

Section 1st — And be it enacted by the Senate and
House of Representatives in Legislature assembled: —

That — Parker M^{rs} Cobb, Samuel Biddleford, Rufus
Nichols, James Montgomery, and their associates and
successors be, and they are hereby constituted, and made a
body politic and corporate by the name of the Locomotive
Company, with all the powers and privileges, and subject
to all the duties and liabilities provided in the several
laws of this State regulating Manufacturing Corporations,
and are authorized to purchase and hold real and personal
estate not exceeding in value at any one time the sum
of five hundred thousand dollars, and the same

may improve, lease, sell, and convey, at the discretion of
real and personal estate may lawfully do.

And said Company are authorized to carry on at
Saco Falls in the town of Biddeford, the manufacture of
lumber, and such other materials as may be necessary, re-
sponsibly connected therewith, and may erect and construct
such machinery, mills and other buildings, as may be useful
for that purpose.

Section 2. — Be it further enacted, — That after the
full capital of Five hundred thousand dollars shall have
been subscribed and paid, the Stockholders in said Corporation
shall and be liable individually for the debts of said Company,
provided the Treasurer of the same shall annually publish
in one or more newspapers printed in the County of York, a
correct statement of the amount of capital so paid in, and
also a correct statement of the debts due from said Company.
Provided that the debts of the Corporation shall not at
any time exceed fifty per cent of the Capital Stock of the
Corporation.

In the House of Representatives July 19 1841
This Bill having had three several readings is passed
to be enacted.

James S. Smith Speaker.

In Senate January 19 1841. — This
Bill having had two several readings is passed to be
enacted.

W. M. Vane President

January 19 1841 — Approved.

Edmund Kent

Secretary of State Office Augusta July 19 1841

I hereby certify that the foregoing is a true copy
of the original on file at this office.

Attest — John H. Stanton Secy of State

Noted — That the Capital Stock of the Locomotive
Company is Five hundred thousand Dollars, and

that the same be divided into five hundred Shares
of One thousand Dollars each.

Resolved — That the present represented at this meeting
together with the other subscribers to the said company
to five hundred Shares, be admitted as associated with
the persons named in the act of incorporation — and
that the proportion of said shares be and they hereby are
designated as follows, the shares being numbered in
perpetual order beginning at number One viz —

1. The first part of the paper is devoted to a general discussion of the problem of the origin of life. It is shown that the problem is one of the most important and most difficult in the history of science. The author discusses the various theories of the origin of life, and shows that the most plausible is the theory of spontaneous generation. This theory is based on the fact that life is a complex of many different parts, and that these parts are all derived from a common ancestor. The author shows that the theory of spontaneous generation is supported by the facts of the origin of life, and that it is the only theory that can explain the origin of life.

2. The second part of the paper is devoted to a discussion of the problem of the origin of the human race. It is shown that the problem is one of the most important and most difficult in the history of science. The author discusses the various theories of the origin of the human race, and shows that the most plausible is the theory of spontaneous generation. This theory is based on the fact that the human race is a complex of many different parts, and that these parts are all derived from a common ancestor. The author shows that the theory of spontaneous generation is supported by the facts of the origin of the human race, and that it is the only theory that can explain the origin of the human race.

3. The third part of the paper is devoted to a discussion of the problem of the origin of the human mind. It is shown that the problem is one of the most important and most difficult in the history of science. The author discusses the various theories of the origin of the human mind, and shows that the most plausible is the theory of spontaneous generation. This theory is based on the fact that the human mind is a complex of many different parts, and that these parts are all derived from a common ancestor. The author shows that the theory of spontaneous generation is supported by the facts of the origin of the human mind, and that it is the only theory that can explain the origin of the human mind.

1. The first part of the paper is devoted to a general discussion of the problem of the origin of life. It is shown that the problem is one of the most important and most difficult in the history of science. The author discusses the various theories of the origin of life, and shows that the most plausible is the theory of spontaneous generation. This theory is based on the fact that life is a complex of many different parts, and that these parts are all derived from a common ancestor. The author shows that the theory of spontaneous generation is supported by the facts of the origin of life, and that it is the only theory that can explain the origin of life.

2. The second part of the paper is devoted to a detailed discussion of the theory of spontaneous generation. The author shows that the theory is based on the fact that life is a complex of many different parts, and that these parts are all derived from a common ancestor. The author shows that the theory is supported by the facts of the origin of life, and that it is the only theory that can explain the origin of life.

3. The third part of the paper is devoted to a detailed discussion of the theory of spontaneous generation. The author shows that the theory is based on the fact that life is a complex of many different parts, and that these parts are all derived from a common ancestor. The author shows that the theory is supported by the facts of the origin of life, and that it is the only theory that can explain the origin of life.

1. The first part of the paper is devoted to a general discussion of the problem. It is shown that the problem is of great importance in the theory of the structure of the universe. The second part of the paper is devoted to a detailed analysis of the problem. It is shown that the problem is of great importance in the theory of the structure of the universe. The third part of the paper is devoted to a detailed analysis of the problem. It is shown that the problem is of great importance in the theory of the structure of the universe. The fourth part of the paper is devoted to a detailed analysis of the problem. It is shown that the problem is of great importance in the theory of the structure of the universe. The fifth part of the paper is devoted to a detailed analysis of the problem. It is shown that the problem is of great importance in the theory of the structure of the universe. The sixth part of the paper is devoted to a detailed analysis of the problem. It is shown that the problem is of great importance in the theory of the structure of the universe. The seventh part of the paper is devoted to a detailed analysis of the problem. It is shown that the problem is of great importance in the theory of the structure of the universe. The eighth part of the paper is devoted to a detailed analysis of the problem. It is shown that the problem is of great importance in the theory of the structure of the universe. The ninth part of the paper is devoted to a detailed analysis of the problem. It is shown that the problem is of great importance in the theory of the structure of the universe. The tenth part of the paper is devoted to a detailed analysis of the problem. It is shown that the problem is of great importance in the theory of the structure of the universe.

Boston August 21st 1877

I have carefully read the minutes of the
Board of the American Anti-Slavery Society of the
21st of August and the Treasurer's Report
for the year ending June 30 1877 as follows
The Cash and other resources were
found to be correct. The balance sheet
and the balance of accounts of the
Treasurer against the Agents at Birmingham
and the Secretary's report on the Bazaar also
were examined by the Directors agree to
the same with some modifications in
connection with the above mentioned
items with accuracy.

Yours Truly
Charles A. Thompson

Boston April 2nd 1878

My dear Mr. May. It is a matter of the
Board to hold the day you are chosen one of the members for
the 6th of the coming year by the majority of the Board & the
Board greatly yourself to fit the office.

Yours Truly
George D. Smith

Sept. 1st 1878
